SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abducens nerve
Pediatric third, fourth, and sixth nerve palsies: a population-based study, 388

Abnormalities, multiple
Ocular malformations, moyamoya disease, and midline cranial defects: a distinct syndrome, 356

***Acanthamoeba* keratitis**
Acanthamoeba keratitis with live isolates treated with cryosurgery and fluconazole, 718

New technique for the cytologic identification of presumed *Acanthamoeba* from corneal epithelial scrapings, 207

Adenoma
Pituitary macroadenoma manifesting as an isolated fourth nerve palsy, 235

Adnexal diseases
Ocular adnexal granulocytic sarcoma as the first sign of acute myelogenous leukemia relapse, 361

Telemedical evaluation of ocular adnexa and anterior segment, 464

Advanced Glaucoma Intervention Study (AGIS)
Encapsulated bleb after initial trabeculectomy, 8

Age groups
Aqueous humor dynamics in the aging eye, 407

Effects of carteolol and timolol on plasma lipid profiles in older women with ocular hypertension or primary open-angle glaucoma, 142

Multiple evanescent white dot syndrome in older patients, 725

The relationship of self-rated vision and hearing to functional status and well-being among seniors 70 years and older, 447

Ahmed Glaucoma Valve
The Ahmed Valve in refractory pediatric glaucoma, 34

Intermediate-term clinical experience with the Ahmed Glaucoma Valve implant, 27

Amblyopia
Automated perimetry in amblyopia: a generalized depression, 312

Amiodarone
Features of amiodarone-induced optic neuropathy, 610

Amyloid
Amyloid and Pro501Thr-mutated βig-h3 gene product colocalize in lattice corneal dystrophy type IIIA, 456

Posterior polymorphous dystrophy associated with posterior amyloid degeneration of the cornea, 86

Anesthesia
Comparison of preservative-free bupivacaine vs lidocaine for intracameral anesthesia: a randomized clinical trial and in vitro analysis, 393

Effects of peribulbar anesthesia on ocular blood flow in patients undergoing cataract surgery, 645

Angiography
Indocyanine green angiographic features in tuberculous chorioretinitis, 350

Anhidrosis
Congenital insensitivity to pain with anhidrosis: ocular and systemic manifestations, 322

Anterior chamber
Retinal detachment in phakic eyes with anterior chamber intraocular lenses to correct severe myopia, 270

Anterior eye segment
Telemedical evaluation of ocular adnexa and anterior segment, 464

Antibodies
Association of antiretinal antibodies and cystoid macular edema in patients with retinitis pigmentosa, 565

Intraocular anti–*Toxoplasma gondii* IgA antibody production in patients with ocular toxoplasmosis, 294

Antithymocyte globulin
Antithymocyte globulin treatment of orbital Wegener granulomatosis: a follow-up study, 738

Apraclonidine
Long-term brimonidine therapy in glaucoma patients with apraclonidine allergy, 511

Aqueous humor
Aqueous humor dynamics in the aging eye, 407

Arteriovenous fistula
Clinical findings in a patient with spontaneous arteriovenous fistulas of the orbit, 736

Arteriovenous malformations
Multiple cranial arteriovenous malformations in a child with eventual blindness in the affected eye, 99

Asia
The dilemma of ophthalmic changes spreads to Asia (editorial), 715

Astigmatism
Effect of astigmatic keratotomy on spherical equivalent: results of the Astigmatism Reduction Clinical Trial, 260

Astigmatism Reduction Clinical Trial
Effect of astigmatic keratotomy on spherical equivalent: results of the Astigmatism Reduction Clinical Trial, 260

B

Bacteremia
Corneal endothelial deposits in children positive for human immunodeficiency virus receiving rifabutin prophylaxis for *Mycobacterium avium* complex bacteremia, 164

Bartonella henselae
Bartonella henselae infection associated with peripapillary angioma, branch retinal artery occlusion, and severe vision loss, 223

Biomicroscopy, ultrasound
Ultrasound biomicroscopic quantitative analysis of light-dark changes associated with pupillary block, 43

Ultrasound biomicroscopy in peripheral retinovitreal toxocariasis, 607

Ultrasound biomicroscopy of ciliary body cysts, 48

Blepharoptosis
Autogenous palmaris longus tendon as frontalis suspension material for ptosis correction in children (correspondence), 488

0002-9394/99/$20.00
© 1999 BY ELSEVIER SCIENCE INC. ALL RIGHTS RESERVED.

Small incision external levator repair: technique and early results, 637

Blindness

Bilateral ischemic optic neuropathy after spinal surgery, 354

Multiple cranial arteriovenous malformations in a child with eventual blindness in the affected eye, 99

Blood flow velocity

Effects of peribulbar anesthesia on ocular blood flow in patients undergoing cataract surgery, 645

Blood transfusion

Adverse periocular reaction after blood transfusion, 466

Books, Software, and Electronic Media

The Cornea, Second Edition, by Kaufman, H. E., Barron, B. A., and McDonald, M. B. (eds), 112

Cosmetic Oculoplastic Surgery: Eyelid, Forehead, and Facial Techniques, 3rd Edition, by Putterman, A. M., 628

The Diabetes Eye Care Sourcebook, by Fong, D. S., and Ross, R. D., 113

Glaucoma Surgery: Principles and Techniques, by Weinreb, R., and Mills, R. P. (eds), 490

Handbook of Eye Emergencies, by Shingleton, B. J., and Mead, M. D., 628

Microsurgery of Glaucoma, by Barraquer, J., and associates (eds), 246

O'Connor Davies's Ophthalmic Drugs: Diagnostic and Therapeutic Uses, Fourth edition, by Hopkins, G., and Parson, R., 113

Practical Paediatric Ophthalmology, by Taylor, D., and Hoyt, C., 246

Principles and Applications of Intraocular Gas, by Whitacre, M. M., 112

Vitreoretinal Disease: The Essentials, by Regillo, C. D., Brown, G., and Flynn, H. W., 744

Brimonidine

Brimonidine tartrate 0.2% twice daily vs timolol 0.5% twice daily: 1-year results in glaucoma patients, 20

Long-term brimonidine therapy in glaucoma patients with apraclonidine allergy, 511

Brown syndrome

Magnetic resonance imaging of acquired Brown syndrome in a patient with psoriasis, 233

Bupivacaine

Comparison of preservative-free bupivacaine vs lidocaine for intracameral anesthesia: a randomized clinical trial and in vitro analysis, 393

C

Calcinosis

Calcified scleral plaques imaged on orbital computed tomography, 461

Capsulorhexis

Complete occlusion of the anterior capsular opening after intact capsulorhexis: clinicopathologic correlation, 343

Carboplatin

Severe ocular and orbital toxicity after intracarotid etoposide phosphate and carboplatin therapy, 230

Carcinoma

Metastatic esophageal carcinoma to the orbit, 228

Pilomatrix carcinoma of the eyelid, 463

Renal cell carcinoma with involvement of iris and conjunctiva, 460

Sebaceous carcinoma presenting as a unilateral papillary conjunctivitis, 458

Carteolol

Effects of carteolol and timolol on plasma lipid profiles in older women with ocular hypertension or primary open-angle glaucoma, 142

Cat-scratch disease

Bartonella henselae infection associated with peripapillary angioma, branch retinal artery occlusion, and severe vision loss, 223

Cataract

Bilateral zonular cataract associated with the mitochondrial cytopathy of Pearson syndrome, 243

Cataracts, bilateral macular holes, and rhegmatogenous retinal detachment induced by lightning, 216

Cataract extraction

Alcaligenes xylosoxidans endophthalmitis 8 months after cataract extraction, 345

Effects of peribulbar anesthesia on ocular blood flow in patients undergoing cataract surgery, 645

Ketorolac tromethamine 0.5% ophthalmic solution in the treatment of moderate to severe ocular inflammation after cataract surgery: a randomized, vehicle-controlled clinical trial, 243

Population-based assessment of the outcome of cataract surgery in an urban population in southern India, 650

Cerebral aneurysm

Small retinal hemorrhages as the only signs of an intracranial aneurysm (correspondence), 109

Cerebral arteriovenous malformation

Multiple cranial arteriovenous malformations in a child with eventual blindness in the affected eye, 99

Chickenpox vaccine

Uveitis associated with varicella virus vaccine, 733

Child

Acute dacryocystitis as a presenting sign of pediatric leukemia, 734

The Ahmed Valve in refractory pediatric glaucoma, 34

Autogenous palmaris longus tendon as frontalis suspension material for ptosis correction in children (correspondence), 488

Corneal endothelial deposits in children positive for human immunodeficiency virus receiving rifabutin prophylaxis for *Mycobacterium avium* complex bacteremia, 164

Corneal transplantation in young children with congenital hereditary endothelial dystrophy, 373

Cytomegalovirus retinitis in immunosuppressed children, 550

Factors affecting the success of nasolacrimal duct probing for congenital nasolacrimal duct obstruction, 616

Fourth cranial nerve palsy in pediatric patients with pseudotumor cerebri, 236

Glaucomatocyclitic crisis in a child (correspondence), 626

Idiopathic intracranial hypertension in prepubertal pediatric patients: characteristics, treatment, and outcome, 178

Multiple cranial arteriovenous malformations in a child with eventual blindness in the affected eye, 99

Pediatric third, fourth, and sixth nerve palsies: a population-based study, 388

Reconstruction of the irradiated contracted socket with an expanded superficial temporalis fascial flap, 621

Treatment outcome in fellow eyes after laser photocoagulation for retinopathy of prematurity, 56

Child abuse

Bilateral periopticointrascleral hemorrhages associated with traumatic child abuse, 473

Bilateral rhegmatogenous retinal detachments with unilateral vitreous base avulsion as the presenting signs of child abuse, 475

Chloroma

Ocular adnexal granulocytic sarcoma as the first sign of acute myelogenous leukemia relapse, 361

Chondrosarcoma

Orbital chondrosarcoma developing in a patient with Paget disease, 619

Chorioretinitis

Coxsackievirus B4 as a cause of adult chorioretinitis, 347

Indocyanine green angiographic features in tuberculous chorioretinitis, 350

Chorioretinopathy

Plasminogen activator inhibitor 1 in central serous chorioretinopathy, 477

Choroid

Optical coherence tomography of idiopathic polypoidal choroidal vasculopathy, 301

Transpupillary thermotherapy in the management of circumscribed choroidal hemangioma, 481

Choroid neoplasms

Radiation complications and tumor control after plaque radiotherapy of choroidal melanoma with macular involvement, 579

Translocation of chromosomes 11 and 22 in choroidal metastatic Ewing sarcoma detected by fluorescent in situ hybridization, 226

Choroideremia

Progression of defects in the central 10-degree visual field of patients with retinitis pigmentosa and choroideremia, 436

Cicatrix

Tarsal margin rotation with posterior lamella superadvancement for the management of cicatricial entropion of the upper eyelid, 67

Ciliary body

Ultrasound biomicroscopy of ciliary body cysts, 48

Clinical trials

Clinical trials in the past 25 years and clinical research in the next 25 years (editorial), 72

Collagen

Abnormal collagen fibrils in nanophthalmos: a clinical and histologic study, 106

Computers

The role of computer assistive technology in rehabilitation of the visually impaired: a personal perspective (editorial), 75

Conjunctiva

Hypertrophic discoid lupus erythematosus of the conjunctiva, 604

Renal cell carcinoma with involvement of iris and conjunctiva, 460

Conjunctivitis

Sebaceous carcinoma presenting as a unilateral papillary conjunctivitis, 458

Conjunctivodacryocystorhinostomy

Lacrimal bypass surgery in patients with sarcoidosis, 443

Contact lenses

Disinfection of tonometers and contact lenses in the office setting: are current techniques adequate?, 77

Effects of contact lenses on scanning laser polarimetry of the peripapillary retinal nerve fiber layer, 722

Tear mixing under a soft contact lens: effects of lens diameter, 659

Cornea

Comparison of corneal wavefront aberrations after photorefractive keratectomy and laser in situ keratomileusis, 1

Corneal endothelial deposits in children positive for human immunodeficiency virus receiving rifabutin prophylaxis for *Mycobacterium avium* complex bacteremia, 164

Corneal iron deposits after laser in situ keratomileusis, 85

Corneal sensitivity after photorefractive keratectomy and laser in situ keratomileusis for low myopia, 497

Effects of hypoxia on corneal epithelial permeability, 153

Flap complications associated with lamellar refractive surgery, 129

Flap complications of lamellar refractive surgery (editorial), 202

Irreversible corneal decompensation in patients treated with topical dorzolamide, 403

Corneal diseases

Infectious crystalline keratopathy and endophthalmitis secondary to *Mycobacterium abscessus* in a monocular patient with Stevens-Johnson syndrome, 209

Multiple evanescent white dot syndrome in older patients, 725

Posterior polymorphous dystrophy associated with posterior amyloid degeneration of the cornea, 86

Corneal dystrophies, hereditary

Amyloid and Pro501Thr-mutated βig-h3 gene product colocalize in lattice corneal dystrophy type IIIA, 456

Autosomal dominant Stargardt-like macular dystrophy: I. Clinical characterization, longitudinal follow-up, and evidence for a common ancestry in families linked to chromosome 6q14, 426

Corneal topography

Comparative corneal topography and refractive variables in monozygotic and dizygotic twins, 158

Corneal topography in asymptomatic family members of a patient with pellucid marginal degeneration, 205

Corneal transplantation

Corneal transplantation in young children with congenital hereditary endothelial dystrophy, 373

Endothelium and pachymetry of clear corneal grafts 15 to 33 years after penetrating keratoplasty, 600

Posterior lamellar keratoplasty for a case of pseudophakic bullous keratopathy, 340

Three-year clinical outcome after penetrating keratoplasty for keratoconus with the guided trephine system, 666

Corrections
Comparison of glaucomatous progression between untreated patients with normal-tension glaucoma and patients with therapeutically reduced intraocular pressures, 126:487; correction, 120

Studies of prevalence of blindness in the Asia-Pacific region and the worldwide initiative in ophthalmic education, 126:582; correction, 369

Corticosteroid therapy
Bilateral ocular ischemic syndrome secondary to giant cell arteritis progressing despite corticosteroid treatment, 102

Controlled evaluation of loteprednol etabonate and prednisolone acetate in the treatment of acute anterior uveitis, 537

New corticosteroids for the treatment of ocular inflammation (editorial), 597

Coxsackieviruses B
Coxsackievirus B4 as a cause of adult chorioretinitis, 347

Cryosurgery
Acanthamoeba keratitis with live isolates treated with cryosurgery and fluconazole, 718

Cryotherapy
Peripheral retinal cryotherapy for postvitrectomy diabetic vitreous hemorrhage (correspondence), 740

Cysts
Iris cyst associated with topical administration of latanoprost, 91

Ultrasound biomicroscopy of ciliary body cysts, 48

Cytology
New technique for the cytologic identification of presumed *Acanthamoeba* from corneal epithelial scrapings, 207

Cytomegalovirus
Bilateral acute retinal necrosis caused by cytomegalovirus in an immunocompromised patient, 93

Cytomegalovirus retinitis
Comparison of intraocular to plasma HIV-1 viral burden in patients with cytomegalovirus retinitis, 221

Cytomegalovirus retinitis in immunosuppressed children, 550

Effect of potent antiretroviral therapy on recurrent cytomegalovirus retinitis treated with the ganciclovir implant, 283

Treatment of recurrent cytomegalovirus retinitis with the ganciclovir implant, 276

Use of the ganciclovir implant for the treatment of cytomegalovirus retinitis in the era of potent antiretroviral therapy: recommendations of the International AIDS Society–USA panel, 320

Visual and anatomic outcomes associated with posterior segment complications after ganciclovir implant procedures in patients with AIDS and cytomegalovirus retinitis, 288

D

Dacryocystitis
Acute dacryocystitis as a presenting sign of pediatric leukemia, 734

Dacryocystorhinostomy
Lacrimal bypass surgery in patients with sarcoidosis, 443

Decision making
Therapeutic decisions: informed choices in a changing clinical environment (editorial), 327

Descemet membrane
Technique for repair of Decement membrane detachment, 88

Dexamethasone
Topical indomethacin solution versus dexamethasone solution for treatment of inflamed pterygium and pinguecula: a prospective randomized clinical study, 148

Diabetes mellitus
Attached posterior hyaloid membrane and the pathogenesis of honeycombed cystoid macular edema in patients with diabetes, 478

Peripheral retinal cryotherapy for postvitrectomy diabetic vitreous hemorrhage (correspondence), 740

Diabetic retinopathy
Causes of severe visual loss in the Early Treatment Diabetic Retinopathy Study: ETDRS Report No. 24, 137

Patterns of diabetic macular edema with optical coherence tomography, 688

Disinfection
Disinfection of tonometers and contact lenses in the office setting: are current techniques adequate?, 77

Dorzolamide
Irreversible corneal decompensation in patients treated with topical dorzolamide, 403

Drug therapy
Brimonidine tartrate 0.2% twice daily vs timolol 0.5% twice daily: 1-year results in glaucoma patients, 20

Controlled evaluation of loteprednol etabonate and prednisolone acetate in the treatment of acute anterior uveitis, 537

Corneal endothelial deposits in children positive for human immunodeficiency virus receiving rifabutin prophylaxis for *Mycobacterium avium* complex bacteremia, 164

Effects of carteolol and timolol on plasma lipid profiles in older women with ocular hypertension or primary open-angle glaucoma, 142

Effects of methotrexate treatment on serum immunoreactivity of a patient with normal-pressure glaucoma, 724

Iris cyst associated with topical administration of latanoprost, 91

Irreversible corneal decompensation in patients treated with topical dorzolamide, 403

Ketorolac tromethamine 0.5% ophthalmic solution in the treatment of moderate to severe ocular inflammation after cataract surgery: a randomized, vehicle-controlled clinical trial, 243

Latanoprost and herpes simplex keratitis, 602

Latanoprost increases the severity and recurrence of herpetic keratitis in the rabbit, 531

Long-term brimonidine therapy in glaucoma patients with apraclonidine allergy, 511

New corticosteroids for the treatment of ocular inflammation (editorial), 597

Randomized trial of intraoperative mitomycin C in surgery for pterygium (correspondence), 245

Resolution of microsporidial sinusitis and keratoconjunctivitis by itraconazole treatment, 210

Topical indomethacin solution versus dexamethasone solution for treatment of inflamed pterygium and pinguecula: a prospective randomized clinical study, 148

Drug toxicity
Severe ocular and orbital toxicity after intracarotid etoposide phosphate and carboplatin therapy, 230

Duane syndrome
Exclusion of candidate genetic loci for Duane retraction syndrome, 358

E

Early Treatment Diabetic Retinopathy Study
Causes of severe visual loss in the Early Treatment Diabetic Retinopathy Study: ETDRS Report No. 24, 137

Electroretinography
Abnormal focal macular electroretinograms in eyes with idiopathic epimacular membrane, 559

Endophthalmitis
Alcaligenes xylosoxidans endophthalmitis 8 months after cataract extraction, 345

Infectious crystalline keratopathy and endophthalmitis secondary to *Mycobacterium abscessus* in a monocular patient with Stevens-Johnson syndrome, 209

Endothelium, corneal
Corneal endothelial deposits in children positive for human immunodeficiency virus receiving rifabutin prophylaxis for *Mycobacterium avium* complex bacteremia, 164

Corneal transplantation in young children with congenital hereditary endothelial dystrophy, 373

Endothelium and pachymetry of clear corneal grafts 15 to 33 years after penetrating keratoplasty, 600

Herpes simplex virus in the trabeculum of an eye with corneal endotheliitis, 721

Irreversible corneal decompensation in patients treated with topical dorzolamide, 403

Entropion
Tarsal margin rotation with posterior lamella superadvancement for the management of cicatricial entropion of the upper eyelid, 67

Enzymes
Antioxidant enzymes in the macular retinal pigment epithelium of eyes with neovascular age-related macular degeneration, 694

Epithelium, corneal
Effects of hypoxia on corneal epithelial permeability, 153

New technique for the cytologic identification of presumed *Acanthamoeba* from corneal epithelial scrapings, 207

Esophageal neoplasms
Metastatic esophageal carcinoma to the orbit, 228

Etoposide
Severe ocular and orbital toxicity after intracarotid etoposide phosphate and carboplatin therapy, 230

Eye enucleation
Reconstruction of the irradiated contracted socket with an expanded superficial temporalis fascial flap, 621

Eye foreign bodies
Siderosis bulbi resulting from an intralenticular foreign body, 218

Eyeglasses
Spectacle-mounted prisms as an aid in face-down positioning after vitrectomy surgery, 480

Eyelid
Histologic and clinical evaluation of combined eyelid erbium: YAG and CO_2 laser resurfacing, 614

Tarsal margin rotation with posterior lamella superadvancement for the management of cicatricial entropion of the upper eyelid, 67

Eyelid neoplasms
Pilomatrix carcinoma of the eyelid, 463

F

Factitious disorders
Factitious disease of periocular and facial skin, 196

Family
Autosomal dominant Stargardt-like macular dystrophy: I. Clinical characterization, longitudinal follow-up, and evidence for a common ancestry in families linked to chromosome 6q14, 426

Corneal topography in asymptomatic family members of a patient with pellucid marginal degeneration, 205

Familial exudative vitreoretinopathy mimicking persistent hyperplastic primary vitreous, 469

Fluconazole
Acanthamoeba keratitis with live isolates treated with cryosurgery and fluconazole, 718

Fluorescein
Fluorescein test for the detection of striae in the corneal flap after laser in situ keratomileusis, 717

Fluorescein angiography
Fluorescein angiographic abnormalities after prophylactic macular photocoagulation for high-risk age-related maculopathy, 681

Functional status
The relationship of self-rated vision and hearing to functional status and well-being among seniors 70 years and older, 447

G

Ganciclovir
Effect of potent antiretroviral therapy on recurrent cytomegalovirus retinitis treated with the ganciclovir implant, 283

Potential complication associated with removal of ganciclovir implants, 349

Treatment of recurrent cytomegalovirus retinitis with the ganciclovir implant, 276

Use of the ganciclovir implant for the treatment of cytomegalovirus retinitis in the era of potent antiretroviral therapy: recommendations of the International AIDS Society–USA panel, 320

Visual and anatomic outcomes associated with posterior segment complications after ganciclovir implant procedures in patients with AIDS and cytomegalovirus retinitis, 288

Genetics
Amyloid and Pro501Thr-mutated βig-h3 gene product colocalize in lattice corneal dystrophy type IIIA, 456

Autosomal dominant Stargardt-like macular dystrophy: I. Clinical characterization, longitudinal follow-up, and evidence for a common ancestry in families linked to chromosome 6q14, 426

Exclusion of candidate genetic loci for Duane retraction syndrome, 358

Glaucoma
Advanced Glaucoma Intervention Study (AGIS): 5. Encapsulated bleb after initial trabeculectomy, 8

The Ahmed Valve in refractory pediatric glaucoma, 34

Brimonidine tartrate 0.2% twice daily vs timolol 0.5% twice daily: 1-year results in glaucoma patients, 20

Comparison of glaucomatous progression between untreated patients with normal-tension glaucoma and patients with therapeutically reduced intraocular pressures (correction), 120

Comparison of glaucomatous progression between untreated patients with normal-tension glaucoma and patients with therapeutically reduced intraocular pressures (correspondence), 623

The effectiveness of intraocular pressure reduction in the treatment of normal-tension glaucoma (correspondence), 623

Effects of methotrexate treatment on serum immunoreactivity of a patient with normal-pressure glaucoma, 724

Glaucomatocyclitic crisis in a child (correspondence), 626

Intermediate-term clinical experience with the Ahmed Glaucoma Valve implant, 27

Long-term brimonidine therapy in glaucoma patients with apraclonidine allergy, 511

Malignant glaucoma after diode laser cyclophotocoagulation, 467

Optic nerve blood flow in glaucoma: effect of systemic hypertension, 516

Peripapillary atrophy in primary angle-closure glaucoma: a comparative study with primary open-angle glaucoma, 121

Glaucoma, open-angle

Effects of carteolol and timolol on plasma lipid profiles in older women with ocular hypertension or primary open-angle glaucoma, 142

Goniocurettage for removing trabecular meshwork: clinical results of a new surgical technique in advanced chronic open-angle glaucoma, 505

Relationship between parapapillary atrophy and visual field abnormalities in primary open-angle glaucoma, 674

Granuloma, giant cell

Giant cell reparative granuloma of the orbit, 485

H

Hearing

The relationship of self-rated vision and hearing to functional status and well-being among seniors 70 years and older, 447

Hemangioma

Bartonella henselae infection associated with peripapillary angioma, branch retinal artery occlusion, and severe vision loss, 223

Transpupillary thermotherapy in the management of circumscribed choroidal hemangioma, 481

Hemangioma, cavernous

Isolated inferior rectus paresis secondary to a mesencephalic cavernous angioma, 617

Hemodynamics

Effects of peribulbar anesthesia on ocular blood flow in patients undergoing cataract surgery, 645

Hemorrhage

Bilateral periopticointrascleral hemorrhages associated with traumatic child abuse, 473

Peripheral retinal cryotherapy for postvitrectomy diabetic vitreous hemorrhage (correspondence), 740

Small retinal hemorrhages as the only signs of an intracranial aneurysm (correspondence), 109

Herpes simplex

Herpes simplex virus in the trabeculum of an eye with corneal endotheliitis, 721

Latanoprost and herpes simplex keratitis, 602

Latanoprost increases the severity and recurrence of herpetic keratitis in the rabbit, 531

Incidence of progressive supranuclear palsy and multiple system atrophy in Olmsted County, Minnesota, 1976 to 1990, 251

T

Toxoplasmosis
The ocular manifestations of congenital infection: a study of the early effect and long-term outcome of maternally transmitted rubella and toxoplasmosis, 494

Transplantation, homologous
Conditions affecting enhanced corneal allograft survival by oral immunization, 249

Trauma
Ocular injuries from air bag deployment, 119

Treatment outcome
Randomised trial of effectiveness of second eye cataract surgery, 115

Visual function and patient satisfaction after macular hole surgery, 117

Trochlear nerve
Relationships of the cisternal segment of the trochlear nerve, 494

U

Uveal neoplasms
Choroidal hemangioma: magnetic resonance findings and differentiation from uveal melanoma, 117

The treatment of metastatic uveal melanoma, 748

Uveitis
Multiple sclerosis associated with uveitis in two large clinic-based series, 630

V

Vascular malformations
Occipital lobe vascular malformations: prevalence of visual field deficits and prognosis after therapeutic intervention, 116

Vision disorders
Creutzfeldt-Jacob disease: neurophysiologic visual impairments, 364

Early-blind human subjects localize sound sources better than sighted subjects, 118

Visual function and patient satisfaction after macular hole surgery, 117

Visual symptoms with dural arteriovenous malformations draining into occipital veins, 746

Visual fields
Macular hole surgery–associated peripheral visual field loss, 250

Occipital lobe vascular malformations: prevalence of visual field deficits and prognosis after therapeutic intervention, 116

Visual perception
Neuroanatomic correlates of visual agnosia in Alzheimer's disease: a clinicopathologic study, 630
